PROFESSIONAL SUMMARY

Full Stack JavaScript Developer with practical experience in designing and developing modern web applications using React, Next.js, TypeScript, Node.js, Express, and MongoDB.

Skilled in building complete applications from frontend interfaces to backend services, including REST API development, database design, authentication, image management, cloud integrations, and deployment.

Focused on writing clean, scalable, and maintainable code while following modern development practices. Passionate about creating high-performance applications with intuitive user experiences and responsive interfaces.

TECHNICAL SKILLS

Frontend

- HTML5
- CSS3
- JavaScript (ES6+)
- TypeScript
- React
- Next.js (App Router)
- React Query (TanStack Query)
- Zustand
- React Hook Form
- Zod
- CSS Modules

- Responsive Design
- Framer Motion
- Swiper

Backend

- Node.js
- Express.js
- MongoDB
- Mongoose
- REST API
- JWT Authentication
- Multer
- Cloudinary
- Cookie Parser
- Nodemailer
- Pino HTTP Logger

Development Tools

- Git
- GitHub
- Git Flow
- Postman
- Vercel
- Figma
- VS Code
- npm
- ESLint
- Prettier

Development Practices

- Component-Based Architecture
- Responsive Web Design
- RESTful API Development
- CRUD Applications
- Clean Code
- Performance Optimization
- Agile / Scrum
- Version Control

PROJECT EXPERIENCE

WONA Bride

Full Stack E-commerce Application

GitHub: https://github.com/Andrii-Mitko/wona_bride

Live Demo: <https://wona-bride.com.ua>

A full-stack wedding dress e-commerce platform built with Next.js and Node.js.

Key Features

- Product catalog with filtering
- Product detail pages
- Shopping cart
- Checkout system
- Admin dashboard
- Product management
- Authentication
- Image uploading
- Telegram notifications
- Responsive interface
- MongoDB integration

Responsibilities

- Designed application architecture
- Developed frontend using Next.js App Router
- Built REST API with Express.js
- Designed MongoDB database models
- Implemented CRUD operations
- Created admin panel
- Integrated Cloudinary image storage
- Added Telegram Bot notifications
- Implemented shopping cart using Zustand
- Built forms with React Hook Form and Zod
- Optimized application performance
- Configured deployment with Vercel

Technologies

Next.js • React • TypeScript • Node.js • Express • MongoDB • Mongoose • React Query • Zustand • React Hook Form • Zod • Cloudinary • Telegram Bot API

Andrii Mitko Brand

Personal Portfolio Website

GitHub

<https://github.com/Andrii-Mitko/andrii-mitko-brand>

Live

<https://andrii-mitko-brand.vercel.app>

Designed and developed a modern developer portfolio showcasing projects, technical expertise, and personal branding.

Features

- Responsive design
- Modern UI
- Component architecture
- Performance optimization
- SEO-friendly structure
- Reusable design system

Technologies

Next.js • React • TypeScript • CSS Modules

AUTH MEDIA API

Backend REST API

Backend application providing authentication, media upload, and REST API functionality.

Implemented

- Authentication
- User management
- CRUD operations
- File uploading
- Cloudinary integration
- MongoDB database
- Request validation
- Error handling
- Secure API architecture

Technologies

Node.js • Express • MongoDB • Mongoose • JWT • Multer • Cloudinary

WatchCharm

Responsive landing page for a premium watch store.

Highlights

- Semantic HTML
- Responsive layout
- Interactive interface
- Modular CSS
- Performance optimization

Technologies

HTML • CSS • JavaScript • Vite

PROFESSIONAL EXPERIENCE

Electrician

Cancer Center

2022 – Present

Responsible for maintaining critical electrical infrastructure and backup power systems within a medical institution.

Responsibilities

- Preventive maintenance
- Electrical diagnostics
- Emergency power systems
- Troubleshooting
- Equipment reliability

Achievement

Maintained uninterrupted operation of critical electrical systems supporting essential medical equipment.

Director

KATRANBUD LLC

2019 – 2022

Managed company operations, coordinated projects, and optimized business processes.

Responsibilities

- Team management
- Operational planning
- Process optimization
- Project coordination

Achievement

Developed an internal payroll and reporting system that improved operational efficiency.

EDUCATION

GoIT IT School

Full Stack JavaScript Developer

2025 – 2026

Studied modern web development, including frontend and backend technologies with practical team and individual projects.

Mariupol Mechanical and Metallurgical College (PSTU)

Electrical Engineering

Power Systems and Automation

1991 – 1995

CORE COMPETENCIES

- Full Stack Development
 - Frontend Architecture
 - Backend Development
 - REST API Design
 - Database Design
 - Authentication
 - Clean Code
 - Problem Solving
 - Performance Optimization
 - Responsive Web Development
 - Agile Methodologies
 - Team Collaboration
 - Continuous Learning
-

LANGUAGES

- Ukrainian — Native
- Russian — Fluent
- English — A2 (Currently improving)
